

# BAXI Luna 3 Comfort HT (240)

Refilling of yor heating

**GAS - WASSER - HEIZUNG**

**1a**  
Installateur

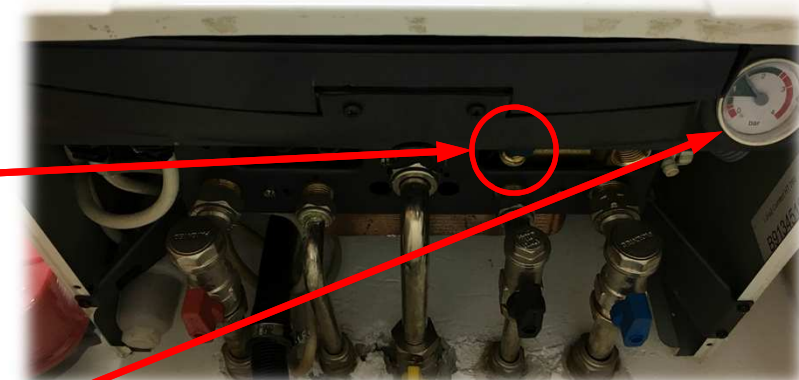

**MANNSBARTH**

DAMIT'S  
**1a** WIRD!

1. Turn the handle to increase the pressure and close the valve when the heating has its right pressure

2. Watch the pressure. In a flat with 1 floor it should be between 1,2-1,5 bar

3. If the display shows an error, than you have to push and hold the button „R“ for 3 sek. to reset the electronic

The company Mannsbarth GmbH assumes no liability of any damage at your heating system
